Subject: Microsoft

To Whom it may Concern: Enough is enough. The government, states that continue the lawsuit against Microsoft, and the companies that are unwilling to compete on product capability alone (AOL, Sun Micro Systems, etc) should be stopped. Let's get on with upgrading technology and continuing the capability of company's that are willing to develop products that effect positively the rising productivity gains caused by technology. Let Microsoft and other independents go and produce gains in technology by positive development of products rather than hiding behind the court system and continuing to file unjustified lawsuits. Let freedom ring!!!! Don Schuman
